

COVID-19 (Coronavirus) and your Business Continuity Plan

COVID-19 (Coronavirus) is beginning to find headway in the United States. Most experts believe that there will be many more people who come down with the virus before it begins to taper off. Does your company have the ability for your workers to work from home? If so, we may be able to assist you in that effort.

U.S. Messenger & Logistics, Inc. stands ready to assist companies testing or utilizing their Business Continuity Plan (BCP) until such time when the risk is over. Most companies have a BCP, many have never had the reason or desire to fully test their plan – until now.

If you need physical items delivered to or from your key employees' homes, such as laptops or other computer equipment, telephones, data drives, paper files, mail from the USPS, etc. consider using our same day delivery solution as a safe and reliable way to complete that checkmark!

Do you need large(er) shipments moved? U.S. Messenger has the ability to move truckloads of items to meet your BCP. Please call for details.

U.S. Messenger has delivered business critical items for over fifty years through countless special events, bad weather days, and other issues; granted, this is our first Pandemic, but for as long as we can dispatch our dedicated couriers - we will deliver for you!

U.S. Messenger is taking precautions to limit the possibility of spreading the virus by initiating a courier “state of the industry” - non-touch Visual Proof of Delivery (VPOD). Using VPOD, we can take a photo of the receiving party, if allowed, and attach the photo to the delivery record. If the receiving party does not want their photo taken, then we can photograph the delivered items. We can also just collect the receiving party’s name and attach that name to the delivery record. We will flex to meet whatever Proof of Delivery solution best fits your firm’s requirements.

We are also creating our own bottles of hand sanitizer, issuing them, nitrile gloves and alcohol wipes to all of our customer facing personnel. Our personnel are encouraged to use these items whenever they feel it may be necessary.

Please feel free to contact us to discuss how we may take the BCP transportation problem and help solve it for you during these trying times!

U.S. Messenger, We Deliver the Service... You Deserve!
